OUR ORGANIZATION

Chartered by the NYS Board of Regents in 1967, South Central Regional Library Council (SCRLC) functions under state law and the State Education Department.

SCRLC is one of nine Reference and Research Library Resources Councils (NY3Rs) in New York State. As a multi-type library consortium, SCRLC serves approximately 73 members across 10,000 square miles in the counties of Allegany, Broome, Cayuga, Chemung, Chenango, Cortland, Delaware, Otsego, Schuyler, Seneca, Steuben, Tioga, Tompkins, and Yates.

SCRLC provides services to 20 academic, 23 hospital, and 23 corporate and non-profit libraries as well as 3 public library systems and 6 school library systems and their members. SCRLC reaches over 500 libraries in its service area.

The SCRLC membership is strengthened by the diversity of resources, expertise, ideas, and perspectives of its multi-type membership and unifies representation of library interests across library type.

SCRLC is the means through which its diverse membership can coordinate, network, learn, advocate, discover, and build on their commonalities. Together, members can achieve a level of service for their users that would be impossible to do alone or as any one type of library.

Multi-type library organizations like SCRLC strengthen library services, programs, and access to information for the benefit of all library users, the region, and society as a whole. Multi-type library organizations ensure everyone's success.

SERVICES

Advocacy. Decisions regarding library funding are made at all levels of government, ranging from the city, state, and federal level. SCRLC can facilitate communication, including meetings--with local officials and decision makers.

Consulting Services. SCRLC helps members with planning, grant opportunities, and challenges related to their library by conducting focus groups and organizing special interest groups to enhance and improve library service.

Continuing Education and Training. SCRLC delivers year-round learning opportunities on a wide variety of topics and in many formats, including hands-on training, face-to-face programs, and webinars.

Coordinated Collection Development Aid for Academic Libraries (CCDA). Academic libraries receive funding to improve identified areas of their collections to strengthen regional resource sharing.

Digitization. *Tools of History* is a regional program that creates digital records and images to improve access to historical materials. This benefits all citizens of New York and the research community at-large.

Electronic Resources. Member libraries receive access to databases, which are used by library staff and their users for research, education, and patient care.

Hospital Library Services Program. Hospital libraries receive funding for collection development, training, consulting, and access to full-text patient care databases.

Information Technology Program/Regional Automation Grants (RBDB). The Council supports innovative information technology projects to strengthen members' ability to provide information access to their users.

Resource Sharing. Member libraries share resources freely with each other using an infrastructure and funding supported by the Council. Members receive delivery subsidies, support for health-related requests through the Medical Information Services Program (MISP), and may use the backup Bibliography and Referral Service (BARC).
