New York Heritage contains unique primary source materials that can provide students with contemporary perspectives of New York State's rich history.

Thanks to the robust level of detail of item descriptions, educators, researchers and students can explore New York Heritage collections in a myriad of ways.

Lesson plans incorporating the materials on New York Heritage are available for free. They have been created by educators for educators. We encourage the sharing of lesson plans. [Click here to submit a lesson plan](#)

Lesson Plans for New York Heritage Materials

Family Photos
Students will understand that families have a past and change over time. They will compare and contrast their own family photographs to those of families at the turn of the 20th century in Central New York. Grade level: K-6

Solar Salt
Students will understand the process of making solar salt and identify salt as an important industry to the history of the Central New York area.

Other Digital Resources
New York State benefits from the development of many digitization projects that have significantly increased access to its wealth of scholarly and cultural assets. The following are representative of these many initiatives:

Institutional Repositories

- The Digital Collections: A Gateway to the Collections Held by the NYR Archives, Museums, and Library
- Cornell University Library Digital Collections
- The New York Public Library Digital Collections
